THE CABLE STILL BROKEN

Arrival of the McCulloch at Mirs Bay Unconfirmed.

SPAIN'S DEAD PREMIER ACCUSED.

Canovar Policy Bitterly Arraigned-No Confirmation of President Dole's Offer. Roosevelt Flooded With Telegrams

From Would Be Rough Riders .

WASHINGTON, May 5 .- A sensation was caused throughout the city by the news that came vesterday of the arrival of a vessel supposed to be the dispatch boat McCulloch at Mirs bay, 40 miles from Hongkong, the cable terminus. The officials immediately fell into an air of expectancy, waiting for some word from Admiral Dewey that would not only confirm officially the stirring news of the battle of Manila, as reported by the press, but telling what had happened since the cable was interrupted. Up to the close of office hours no word had come from Hongkong, and the officials who believe that the Mc-Culloch was really in Mirs bay were put to devising ingenious explanations of the delay in the receipt of a cablegram. These touched upon the 12 hours difference in time, the distance from Mirs bay to Hongkong, which had to be overcome by the messenger, and the slowness of cable communication owing to the number of relays on the enormously long circuit from Hongkong to

New York. Some of the naval omcers, nowever, who steadfastly contended that Admiral Dewey would not have sent away his dispatch boat until he had completed his dispatch and received the surrender of Manila, pointed out that if they were right in that assumption it would not be possible for the McCulloch to reach Hongkong before this morning. Great interest is felt in the reported return of the Spanish Cape Verde fleet to Cadiz, but while admitting the possibility of the fast vessels of the Spanish flying squadron making the passage in the five days that the vessels have been out from St. Vincent, the naval officers were disposed to regard with great suspicion news of this kind emanating from Portugal, because of the recognized sympathy of the Portuguese with the Spanish side. It would be worth a good deal to the Spanish admiral commanding the flying squadron, supposing he were on his way across the Atlantic, to throw us off our guard by having us believe that he had returned to Spain.

The navy department has now secured two vessels, the Australia and the City of Peking, in San Francisco, which will be loaded with coal and supplies and rushed off to join Commodore Dewey's fleet. Whether or not they will carry troops will be determined positively when the commodore is heard from upon this matter.

The navy department is hurrying together an exceptionally large stock of ammunition to go forward by the City

of Peking for Commodore Dewey's fleet. The first shipment of projectiles left New York Tuesday, and additional shipments will be made until the full quota of powder and shot will be in San Francisco within the next ten days. There will be a total of more than 20,000 projectiles of various caliber and weight. For the four 8 inch guns of the Olympia there will be 500 8 inch steel armor piercing projectiles. weighing about 900 pounds each. For the 6 meh guns of the Olympia, Baltimore and Boston and other ships there will be 1,000 steel projectiles. The other shipments will include ten thousand 6 pound rifle balls, two thousand 5 inch shells, three thousand 3 pound balls and three thousand 1 pound balls.

Applications for enlistment are coming in from the east in large numbers, but the most rigid tests for qualification are being insisted upon.

IN THE SPANISH CORTES.

Policy of Prime Minister Canovas Bitterly Arraigued.

MADRID, May 5.—Public attention estatered again yesterday in the con-gress (lower house of the cortes). There was a repetition of the great crowds of Tuesday, the police and civic guards, besides the secret police, mingling with

Senor Reverter, minister of finance in the Canovas ministry and the hero of excommunication incident last autumn defended the memory and poliy of Senor Canovas.

Senor Canalejas, editor of El Heraldo, replying, dwelt upon the "weakness and vaciliation of the government of Canovas which fostered Yankee boldn ss."

The principal speech was delivered by Senor Romero y Robledo, former minister of justice and leader of the Weylerite party, who maintained that America fostered the Cubanrebellion and "meant war from the commencement." Senor Moret's policy of autonomy he characterized as a farce and as absolutely erroneous. As for the Cubans, he declared that they did not desire autonomy. and as for the rebels, that they never intended to accept it. "The present conflict," he continued. "proves the real intentions of the Yankees. Spain must now face her international enemy, and she should not waste a single peseta to give the Cubans autonomy, which would be one step toward independence. The war requires the energy of all classes to defend the king and the fatherland."

In the course of the debate a formal promise was made on behalf of the old Conservatives to support the government while the present situation continues.

SPAIN MAY YIELD.

Would Be Willing to Cede Us Cuba if We Asked No Indemnity.

LONDON, May 5 .- The Madrid correspondent of The Daily Telegraph says: "Those who are best informed as to the government's view allege that if the Spanish arms suffer another reverse like that at Cavite the government would informally request the great powers to lend their services to arrange the best possible terms of peace. Many Liberals consider that Spain, having maintained her honor and justified her chivalry, can now afford to yield to superior force, but it is doubtful whether public opinion would approve this line

"I am assured that the government would be content to cede Cuba to the United States, but would not pay indemnity, because unable. Well informed politicians here regard the war as practically terminated and that toward the end of May it will become history What will follow, however, it is difficult to foresee. All the elements of a long civil war in Spain are unfortunately hecoming visible. The government and the Liberal party are popularly hated. as being responsible for the war. The Republicans possess no durable chance of success. The Conservatives and Carlists are the great parties of the future and some of the Conservative groups are gravitating toward Carlism. The economic question, however, will come to the front first, for hunger cannot wait."

SPAIN FEARS FAMINE.

Exportation of All Food Stuffs Will Be Prohibited.

LONDON, May 5.-The Madrid correspondent of The Dally Mail, telegraphing Wednesday night, says:

"The cortes will tomorrow approve the measure prohibiting the exportation of corn, flour, rye, maize and potatoes and suppressing the duty on the importation of those articles. The bill is certain to pass the senate.

They wished as much as other Spaniards, he said, for the triumph of the mother country, but should misfortune come, they would oppose any humiliating action on the part of the Spanish government."

OUR CONTINENTAL FRIENDS. They Are Not Pleased With the American

Victory at Manila.

LONDON, May 5.-There can be no doubt that the unexpected success of the United States at Manila gives little leasure to continental politicians who recognize that America is now certain to become a first class naval power and will have to be reckoned within the world's affairs.

Lord Salisbury's speech before the Primrose league yesterday appeared to show that he had a presentiment of the change now working in his vague, prophetic foreboding of coming trouble. The premier spoke of the "living and dying countries of the world" and of how the former were gradually encroaching upon the latter. He spoke also of the "corruption of dying countries, a corruption so deep seated as to give the smallest hope of reform," and he referred to the partition of these countries as likely to lead nations into war. "Dying countries," said Lord Salisbury, "are mostly un-Christian, but, I regret to say, not exclusively so."

Riots In Spanish Provinces.

MADRID, May 5.-The outbreaks in the provinces are assuming alarming proportions. This is especially the case in the province of Gijon, on the bay of Biscay, where the troops have been compelled to fire on the rioters "in self defense." The latest news from Gijon is that the artillery has been ordered out.

At Talavera de la Reyna one of the Jesuit religious houses has been burned. It is asserted here that the riots arise from hunger rather than from political

Couldn't Run the Blockade. NEW YORK, May 5.-The British

steamer Ardanmhor, which sailed from Guanta, Venezuela, on April 22 bound for Havana with a cargo of 873 head of cattle, arrived in port yesterday evening, having been unable to reach Havana owing to the blockade of Cuban ports by United States warships. The Ardanmhor when off Matanzas on April 27 at 8:30 p. m. was boarded by the United States cruiser Cincinnati and her captain notified that owing to the blockade his vessel could not enter Havana. He was also warned that he must not enter any other Cuban port. The Ardanmhor then proceeded to Key West for orders, where she arrived at 8 a. m. of the 28th.—Captain Dunn cabled him agent, W. D. Munson, and received orders to proceed to this port.

James Bryce on the Situation.

LONDON, May 5.-The Right Hon. James Bryce, Radical member of parliament for South Aberdeen, writes to The Dally Chronicle this morning as follows: "The war is a great misfortune and

may in the long run raise grave difficulties for the United States. All my wishes go, of course, with the United States, and the general sympathy with their kindred across the sea which our people have spontaneously displayed and which was evident from the first has shown how close is the tie which unites the two nations."

Coppinger Promoted. MOBILE, May 5 .-- News of the promo-

tion of Brigadier General Coppinger to be major general and Colonels Snyder and Hawkins of the Nineteenth and Twentieth to be brigadiers was welcomed with shouts in camp yesterday afternoon. General Coppinger took his honors modestly, saying that he was pleased, but that his pleasure for himself was not to be compared with that which he felt in knowing that his abla officers. Snyder and Hawkins, had received deserved promotion. All the officers present at headquarters shook hands with the general and congratulated him. Major Pond carried the news to the promoted colonels, and when it was received cheers were loud and frequent.

Pilots Must Stay In Nights.

NEW YORK, May 5.-Orders have been issued to the fleet of Sandy Hook pilots that the pilot boats on the southern station off Long Branch, the east+ ern station at Fire island and the station heat off Sandy Hook lightship shall put into Sandy Hook bay every night at dark and remain anchored until daylight. It is feared that in the event of the Spanish fleet falling in with one of the pilot boots the Spaniards would take possession of the pilots and at the peril of their lives compel them to navisate the hostile fleet into our harbor.

Ships Loaded With Coal to Their Utmost Capacity-New Orleans Joins the Flying Squadron-A Warm Recep-

KEY WEST, May 5.—The exodus of naval men yesterday after a brief return visit here was the only incident of note in the dullest day since hostilities opened. Where they have gone is officially unannounced, but surmise is plentiful and varied.

The fact that the big battleships and monitors coaled to the fullest capacity before steaming away is taken to indicate a plan occupying considerable

The Cuban blockade is still rigidly kept by the smaller cruisers, under the temporary command of Captain Conerse of the Montgomery.

The departing officers are still distussing Commodore Dewey's brilliant Manila victory and hoping for an opportunity for a like achievement. The only arrivals here yesterday were

the steamer Evelyn from Newport News, with a cargo of coal for the fleet, and the revenue cutter Windom from Hampton roads. In the harbor 680 marines, with their officers, are still packed away on the Panther, broiling in the tropical sun. Only the officers have shore leave. According to Captain Little of the fishing schoener Antonio y Paco, captured by the gunboat Newport a few days ago, Havana is on the verge of famine. Food is bringing fabulous prices and the people are consequently starving. The soldiers are seizing whatever provisions are accessible, and citizens are burying their food in yards and cellars. "If I could have slipped past the blockade." said Captain Little. "my fish would have brought their weight in gold."

The Spanish fishing smack Do Septembre was brought in last night by a prize crew from the Helena. She was taken eight days ago in Yucatan channel by the gunboat and sent here. Adverse weather was encountered, during which the charts were blown overboard, and the captors with their little prize cruised aimlessly about the waters of the gulf until yesterday, when the British steamer Jamaica was encountered and put them on their right course. The capture of the schooner was not attended by any sensational circumstances, one blank shot sufficing to round her.

The squad-ron as now constituted will consist of the first class battleship Massachusetts, the second class battleship Texas, the armored cruiser Brooklyn, the New Orleans, of the type of the Raleigh, and the fast armored yacht Scorpion, with four 5 inch and four 6 pounder guns. The Minneapolis has not been officially detached and may yet join the squadron. The squadron is now accompanied by a first class tug for dispatch boat purposes and the collier Sterling. On the ships yesterday fire and collision drills were gone through with in remarkable shape. On the Brooklyn the two score of hose connections were made and the tarpaulins spread in less than 14 minutes, while water was ready to be let into the magazines. During the collision drill the water tight compartments were closed and the matter to repair a break in the hull ready in less than two minutes. on the Presidential Succession Bill. WASHINGTON, May 5 .- Quite unexpectedly a brief but sharp debate was precipitated in the senate yesterday on the income tax proposition. The resolution proposing an amendment to the constitution of the United States relating to the succession to the presidency was under discussion. Mr. Muls of Texas proposed an amendment in the form of a new section intended to authorize congress to levy a tax on incomes in such form as to meet the requirements of the decision of the supreme court. He was sharply criticised for endeavoring to place such a rider on a resolution which practically all senators favored, but stood his ground and insisted upon a vote on his amendment, The amendment was defeated-32 to 29 -all the Republicans voting against the amendment and all the Democrats, except Mr. Caffery of Louisiana, together with the Populists and silver Republicans, voting in favor of it. Major Generals Confirmed. WASHINGTON, May 5.-The senate in executive session yesterday confirmed all the nominations of major generals which had been sent in earlier in the day by the president. In the case of Senator Sewel! the confirmation was immediate, the senate following its usual custom of acting upon the nomination of a fellow member without any reference to committee. The other names were referred to the committee on military affairs and were almost immediately afterward favorably reported, the committee's vote being taken in the senate chamber. Confirmation followed in all cases without comment, except in that of General Wilson. Senators Bacon and Lindsay took occasion to speak of him in complimentary terms. Senator Bacon relating that during the war of the rebellion he had been captured by General Wilson, who was at that time an officer in the federal army, while Mr. Bacon was a Confederate. He said he was, therefore, able to speak from experience when he testified to nila and to what extent the squadron General Wilson's capacity as a soldier

ALBANY, May 5.-Governor Blackhag authorized the aqueduct commissioners of New York to appoint 100 special deputies to guard the Croton aqueduct so as to prevent any attempts that might be made by Spanish spies to blow up the same and thereby cripple the water supply of New York city. The governor gave this permission yesterday on the application of Peter J. Dooling, pres-Ident of the aqueduct commission; missioner Charles H. Murray and Harry W. Walker, secretary to the commission. These commissioners told the governor that rumors were current that it was the intention of Spanish spies in New York city to so destroy the Croton aqueduct that the water supply of New York city would be crippled to such an extent that the city would be threatened with a water famine, which would prove very disastrous. They asked the governor to authorize them to appoint 100 special deputies to patrol the Croton aqueduct and thwart any attempt that might be made to destroy it. The governor acquiesced in their request, as stated above.

The Obio River Assists a Lonely Young Woman to Find a Husband.

Miss Edna House, of Bromley, near Cincinnati, was an ambitious young woman, who on one September after-moon became tired of single blesseduess and resolved to secure herself a husband.

She cast a bottle upon the waves of the Ohio, in which, before sealing, she had placed a note which read:

"The finder of this will please correspond with me at once. I am lonely because the Bromley boys are too slow.
"EDNA HOUSE."

The missive danced along until it was lost to sight, and the young damsel had almost forgotten its existence when one day a month later she received a note from John Eggleston, a farmer of North Bend, Ky., which stated that he had found the bottle and intended to comply with the note found therein. He did so, and an exchange of photographs followed.

Shortly afterward Bromley people were startled by the appearance one Bunday afternoon of a new rig in front of the House homestead, and investigaation revealed the fact that Eggleston had come to make the acquaintance of Miss House. Since then frequent visits have been made, and the gossips of the town predicted a speedy union of the two young hearts.

The expectations were realized one day lately when Eggleston arrived in town dressed in his best, and soon the two were seen wending their way Yoward the office of Squire Anderson, where they were married.

NERVE OF A BOLD DRUMMER.

He Compelled a Railroad to Haul Him in a Private Car to Stoux Falls, S. D.

His bold defiance of a railway corpo-

ration procured M. T. McNeil the honor of a special car recently from Fort Dodge, Ia., to Sioux Falls, S. D. Mc-Neil is a Chicago traveling man. A few days ago he bought a ticket over the Illinois Central from Chicago to Sioux Falls and engaged a berth in a sleeper for the entire trip. At Fort Dodge, however, it was decided to turn the train around and run it back to Chicago-a plan occasionally adopted when travel is light. This compels the Sioux Falls passengers to rise early and change cars. McNeil was accordingly aroused, advised as to the situation and peremptorily required to hurry on his clothes and leave the sleeper. But not he. He would ride to Sioux Falls in that sleeper, he declared, or go back to Chicago with it. And then let the Illinois Central look out for a damage suit. The conductor offered to pay his passenger's hotel bill until another sleeper arrived or do anything else in reason to accommodate him. The traveling man stuck for his rights and the officials finally wired to headquarters for instructions. On orders received from there the car was then carried through to Sioux Falls with McNeil its only occupant.

BURROS FOR JAPAN.

A Big Bunch of Them to Be Shipped from Oregon Ranges. Not long ago, when W. L. Powell and

A. J. Powell were riding through Wallows county to buy horses they noticed on the range numerous herds of burros They hunted up the owner, a hotel man at Elgin, says the Portland Oregonian. "What do you want for those burros?" asked one of the Powells.

The owner fixed no price, but would

"I'll give you \$3 50 a head and round them up myself or six dollars a head, you to deliver them at the corrals."

A contract was made on the latter basis for 600 head. The owner found the job of collecting those burros a big one. They were wild and free and objected to captivity. Since August last from six to ten men have been busy with lariats, and they have just finished the work. When a bunch of six or seven were captured their heads were tied together and they were released until wanted. Nearly 1,000 head, many of them young jacks, were at last rounded up and delivered. The Powells took them all. They will be shipped to Seattle, and the majority are destined for Japan to be used there as pack animals. Some go to the Klondike, however. The younger ones will be released by the Powells on the ranges near Prosser, Wash., to further increase and multiply.

A dozen years or so ago the pack train of an emigrant outfit, consisting of burros, was turned loose in Wallown valley From these ancestors sprang the 1,000 head that now comprise the novel shipment of the Powells.

Inventor Edison's Brightest Story.

One of the best examples of the great Inventor Edison's wit is recorded in an anecdotal biography of the great inventor in Ladies' Home Journal: "A gentleman representing the building committee of a city church called to see Mr. Edison. The committee had been unable to decide whether to equip the church with lightning rods or not, and had sent to secure Mr. Edison's opinion on the matter.

" 'By all means,' said Edison, 'put on the rods. You know Providence is sometimes absent-minded."

THE RETRO-OPTICON.

An Invention That Enables Wheel men to See What Is Going on Behind Them.

It is not often that a bicyclist concerns himself with what is going on behind him, but for those who do a device called a retro-optioon is now available. This addition to the equipment of a wheel consists of a convex mirror, 23/4 The studding is 2x4, 16 inches on | inches in diameter, in a nickel frame, with ball and socket joints, so that any angle may be secured. It is to be used on the handlebar, preferably just in front of the left grip, and when so placed, it enables a rider to scan the road behind him without moving his head, the convexity of the mirror giving it wide scope. The excuse for the invention of this device is that there are many conditions in which it is found desirable, owing to the increased number of rubber-tired vehicles, cable and trolley lines. A larger size is made for use on row boats and vehicles. Among the novelties for this season is a most useful lock stall. It is made of heavy spring wire, with malleable iron wall plate, and is rubber covered at points where the wheel touches. It is highly recommended for baggage cars, steamboats, churches, colleges, etc., where space is valuable. While the lower wheel rests on a bracket attached to the side of the car, or on a wall, the iron loop of the stall slips over the front wheel, which is uppermost, and so engages it that it is immovable, and can be securely locked.

Feeling the Earth's Polac.

The fanciful notion that men used sometimes to entertain that the earth is, in some sense, a living thing would probably have derived support from the recent observations of Prof. John Milne and others on the shivers and quivers that frequently run through its rocky frame, but escape notice except when watched for with specially constructed

and exceedingly delicate apparatus. Prof. Milne reports that apparatus of this kind has now been mounted in Canada, British Columbia, the United States, South Africa, New Zealand, Java, India and Argentina, as well as in England and at various places on the continent of Europe.

Blooming Grove-Mrs. M. S. Marsh Mrs. Alice H. Chadwick. Florida-Mrs. D. C. Jayne. Warwick-Mrs. Hiram Berry.

Newburgh-Mrs. Charles Jenkins. Montgomery-Mrs. William Senior. Chester-Mrs. George Seeley.

SECRETARY'S REPORT.

The secretary, Mrs. Morgan, submitted the tenth annual report of the society as iollows:

Only an outline of a work ever the same, yet ever new in interest, can be given in this brief record.

One year ago we opened the new building consisting of sixteen rooms, including the dining room. At present, all except three of these rooms are occupied. They were furnished by friends in this wise: The citizens of Middletown, individually and through organizatious, have furnished six rooms; Gosben, 1; Mount Hope, 1; Washingtonville, 1; Woodbury, 1; Moutgomery, 1, and two by their occupants.

We now have twenty-three inmates, a matron and superintendent, one nurse and one domestic, in all a family of twenty-seven. Surely the wants of the Home are apparent and imperative.

Criticism more or less unfavorable often confront us, with threats to withhold the support heretofore given by friends if the institution is not conducted more in conformity with their ideas. Can we please everybody, and still keep our expenses within the means given us to carry on this work? Certainly no one makes a mistake in giving of his or her abundance to the support of so worthy a charity honestly conducted. The successful test of any branch of benevolence is its usefulness, its need to the public; and as we continue the good work so well begun, we feel assured its support will not fail.

We ask the co-operation of every church of our faith in the county. A little help from each would in the aggregate render us great assistance.

Last year we received from the churches

of Chester \$5.73; Montgomery \$14; Walden \$5.55; Washingtonville \$14. The fair in September netted us \$480.25. As before, fully one-half of it came directly from Goshen. We have received no

legacies in the last year.

Ten applicants have been admitted within the past year. No deaths have occurred; and although there has been some sickness, the inmates have for the most part enjoyed good health under the faithful medical care of Drs. Hardenurgh and Schultz. We tender these our

sincere thanks. The Daughters of the King have delighted the inmates many Sunday afternoons with a service of song and reading and their mission of love is appreci-

We wish to thank one and all for whatscever they have done to promote the welfare and happiness of those under our

It is a pleasure to record that in all the years past the operations of the Board have been shaped and -timulated by harmonious action, to which fact we can attribute much of our prosperity and success, and we hope that through wisdom and forbearance, we may thus continge our benevolent work, and be ever true to the sacred trust reposed in us as

managers of the Home, HARRIET B. MORGAN, Sec'y. TREASURER'S REPORT.

"NICK" AS A FORAGER.

Now He Made Sure of a Supply of Straw for the 24th. From the Middletown Press.

The credit for the first foraging has lallen to Sergeant Nickinson. He cartured two loads of straw, Monday afternoon, in a manner of cleverness such as he only knows how. "Nick" saw the straw about a mile away approaching the camp, and without a word he started after it. His first remark to the driver was, "Where are you going with that straw? followed quickly, without giving the man a chance to explain, with "You follow me." The m in did as he was bid and the straw was ours. We had plenty for ourselves and the 5th, too.

sudden Death of a Cornwall Physic'an.

AN INTERESTING COINCIDENCE.

The First of the Fighting Beweys-A Naval Engagement of 2,500 Years Ago

EDITOR ARGUS:-Those who are interested in finding conscidences will like to know that the American naval hero, Dewey, who by his wonderful achievement at Manila has covered himself with glory, had a naval prototype and namesake in the person of the famous Roman admiral, Duilius, (which is only the Latin form of Dewey,) who won a splendid victory over the Carthageniaus about 500, B. C., in the Mediterranean

The coincidence goes still further in the fact that the Carthagenians were in the possession of Spain, as one of their colonics, at that time, and in this war they did everything to avoid an engagement, from fear of the Romans, just as the Spanish ships in the present war, have been doing their best to keep out of the way of the American war vessels.

But the Roman admiral, Duilius, forced them to an encounter, laying hold of their ships with grappling irons and sending his men over into their vessels by boarding planks.

In much the same way and with the arue intrepid spirit the American 'Duilius" broke through all the barriers interposed by a timorous foe and annihilated the Spanish fleet in the barbor of Manila as his Roman namesake smashed the Carthageniau vessels in the bay of Dyrrachium. DAVID EVANS.

special Excursion by the Eric to Bempstead Plains, L. I.

The Erie announces that it will run an xeursion to Camp Black, Hempstead Plains, L. I., where the 24th Separate Company is encamped, on Sunday. May 8th. Special train will leave Middletown about 5 a.m., and returning will leave Jersey City about 8 p. m. A special boat will leave Jersey City upon the arrival of the special train, conveying excursionists direct to the Long Island City depot, and the same service will be used returning. In this way the excursionists will not have to land in New York city. The price for the entire round trip will be \$1.50, which includes the ferry and fare on the Long Island Railroad. This is a grand opportunity to go and see our 'brave boys in blue." 39d±t

A Birthday Surprise Party.

About 125 of the young friends of W. B. Miller, oue of J. C. Runyon & Son's most popular clerks gave him a birthday surprise in Nearing Hall, last evering. It was so well managed that Mr. Miller did not know of it until he entered the hall. A fine supper was served by the committee after which Will Ritch, in behalf of Mr. Miller's friends, presented him with a handsome rocker. Mr. Miller, although much surprised, responded in a very appropriate manner. Dancing was enjoyed until a late hour. Music was furnished by Barnes & Sayer.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. ence has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. If Admiral Sampson, with the New York, Indiana, Iowa and Puritan, can but locate the Spanish Atlantic fleet and induce it to give battle he will leave as little of it as Commodore Dewey left of the Asiatic squadron.

The gathering of war news entails very heavy expenses on the news associations and the great newspapers that maintain an independent news service. Messages from Hong Kong or the Philippines cost \$2 a word.

If Admiral Sampson should destroy or take possession of the Spanish coaling station at San Juan, the Spanish fleet when it arrives in West Indian waters would find itself in most sorry plight. A fleet of modern warships without a coal supply is more helpless than when without ammunition.

SAFE BURGLARS AT MONROE.

Blew the Outside Door from Knight & Conklin's rate-Frightened Away Before They Could Open the Inside Vault

Sufe-blowers made an unsu cessful attempt to rob Knight & Conklin, of Mouroe, Wednesday night. People hving across the street from the store heard an explosion between I and 2 o'clock, and a man raised a window and looked out. This is believed to have frightened the burglars away. When the store was opened, this morning, it was found that the big door of the safe had been blown clear across the office. The uner vault door had not been tampered with. The thieves would have secured \$150 had

they succeeded in foreing the inner door. The tools which were used were stolen from Starchild's shop, and they were left behind.

INCIDENTS AND HAPPENINGS IN GOSHEN TOWN.

John Minchin Thrown from a Wagon and Badly Rurt - bons of Veterans Weeting for Enlistment. From Our Regular Correspondent

-John Minchin, the veterinary surgeon, was thrown from his wagon, this morning, and received bad injuries. The accident occurred while he was turning around and was caused by the rein catching under the end of the shaft. His hip and side were badly bruised and there is a deep gash in his head, besides minor

contusions. The injuries are not thought to be dangerous. Mr. Minchin is one of the oldest horse doctors of New York State and when in his prime was foremost among the specialists of horse ail--A special meeting of the Sons of Veteransis called for Monday evening, at

8 o'clock, to perfect their arrangements for enlistments. At 8:30 the meeting will be opened to volunteers and it is desired that there be a lot of 'em.

EXCITING INCIDENT OF CAMP LIFE

Sixty-Ninth Regiment Recruits Raided the First Regiment's Tents for Overcoats and Blankets-Rounded Up by the 74th and 5th Company Men and the Stolen Property Recovered.

Russell Wiggins, who was at Camp Black, Wednesday, states that an exciting incident happened about 3:30 p.m. A large number of volunteers in the 69th Regiment were taken to camp in their civilians' clothes, without blankets or overcoats. Tuesday night they slept without even tents over them and Wednesday afternoon, being chilled through with the cold, a large number of them made a raid ou the tents of the 1st Regiment, carrying away overcoats and blankets. About 200 of the 1st Regiment, including the 24th and 5th boys. broke through the guard lines, surrounded the unsoldierlike recruits and kept them penned until a corporal's guard appeared and placed them all under arrest, and the stolen property was re-

INSPECTIONS OF CELLARS.

Chief Righam and Cabt, Veber at the Work, To-day-An Unsatisfactory Arrangement.

Capt. Veber and (hief Higham have been making inspections of the cellurs of business places, to-day. They find them in fairly good condition.

The present arrangement for inspection is very unsatisfactory. Chief Higham has not the time to make these inspectious, and when Chief Veber is away from headquarters telephone calls for officers are not answered. The Board of Underwriters is also dissatisfied. They think that in order to get a reduction of rates some one should be appointed who will devote all his time to the inspections, making them frequently and faithfully.

LONDON, May 5 .- The Eastern Telegraph Company says: "Neither Press dent McKinley nor anyone else has received a message from Commodore Dewey."

WASHINGTON, May 5.-Neither the State nor Navy Departments has received any word from Commodore Dewey.

There need be no apprehension on the part of the public that any news that is received from Commodore Dewey will be withheld.

Secretary Long has stated in the most emphatic manner that he regards it as his duty to make people acquainted with the facts as soon as he knows them himself. He believes this is only just to the friends and relatives of the sailors. Therefore many rumors and statements that are constantly circulating to the effect that the Navy Department has received mysterious cablegrams from Hong Kong which it has sedulously concealed may be set down as pure moonshine.

KILLED BY THE TROLLEY.

JOHN GLYNN RAN IN PLAY TO HIS DEATH.

Notermen fird Wood Tried to Stop Cas No. 14 in Time, But the Unfortunate moy was Molled Under the Car to the Rear Frader and Mr. Bird Hose. After Being Taken Gut.

John Glynn, the fourteen-year-old son of Peter Glynn, of No. 74 Spragne avenue, was struck by trolley car No. 14, Wednesday, at 5:45 p. m., and received injuries from which he died before the ambulance or medical attendance arrived.

The lad, with several playmates, Ira-Gardner, Thomas Nally, Andrew Smiley and Robert Carr, were playing roly-poly on Sprague avenue, in front of Avers & Rogers' livery stable. The ball fell in a hole and the owner of that hole had a right to "peg" the ball at the others. Glynn and Gardner plunged across the trolley tracks, not seeing the car right upon them. Gardner then saw the danger and shouted to Glynn to look out, and Glynn stopped and looked the wrong way.

Car No. 14, Motorman James Anderson, who was breaking in ex-Constable Fred Wood who was in charge of the brake, had just appeared under Sprague avenue bridge, running at the usual rate of speed. Conductor Moshier was in charge. They saw the boys standing by the gutter, but were almost on them just as the two ran in front of the car. Gardner saw his danger and tripped

and fell out of harm's reach. Glynn stopped and the car struck him full, and the unfortunate boy was knocked between the rails. For about thirty feet the car moved despute the effort to arrest it, the boy rolling in front of the fender, then under it. under two motors and finally lodged in front of the rear

The trolley men drew him out, but the boy was injured beyond aid. He was tenderly carried into the livery stable and placed on blankets.

The ambulance was summoned and Dr. Fancher also appeared upon the scene, but was too late to be of service. The boy was dead. A crowd gathered and he had barely been placed on the stretcher, and carried

to the ambulance when word came that

the boy's mother was coming. A sister

was already sobbing and crying for her brother, but all too late. Coroner Harding was notified and be arrived here on the Wells-Pargo Express. He summoned a jury which viewed the remains and took an adjournment until four o'clock, to-day, at the Commercial

House. The coroner's jury is: 'Thos. Donovan Daniel Daly, John Durham, J. D. Brinkerhoff, C. C. Veber, James Dwyer and John Danovan.

GOUVERNEUR, N. Y., May 5.—Bank Examiner Josiah Van Vranken has arrived in this city and is in charge of the First National bank of Carthage, which closed its doors yesterday. He has made a partial investigation and states that the affairs of the bank are in a very muddled condition. At least a week will elapse before an accurate total of President Myers' defalcation will be obtainable. The peculations began in 1889, two years after Myers was chosen president. One of the men connected with the bank states that further investigation has increased the shortage to in the neighborhood of \$105,000. The first estimate was but a third of this sum. Myers has loaned to even distant relatives, with only notes as security. He is also personally heav-

Big Fire In Chicago.

CHICAGO, May 5.-Armour's glue factory, Thirty-first and Benson streets, was in danger of being burned for half an hour yesterday afternoon. The flames were checked with the destruction of the felt works and curled hair building, entailing a loss of probably \$250,000, without reaching the ammonia plant or glue works, both of which were in great danger. A panic among the 190 employees of the Fleet works, where the hre originated, resulted in a dozen porsens jumping out of the second story windows, some being badly bruised, but none seriously injured. August Meleski, a boy, who broke a leg, was the most unfortunate. The building was 265 by 50 feet and was completely destroyed. The origin of the fire is not known,

The Indiana could lie outside Sandy Hook and throw 1,200-pound shots into New York at the rate of four a minute. Battleships are for the heavy work; rruisers are commerce destroyers;

Battleships cost from \$2,500,000 to \$3,750,000, and cruisers from \$600,000 to \$3,000,000. A good torpedo boat costs over \$100,000.

monitors are useful only for coast de-

Our battleships have a speed of from 15 to 17 knots an hour. Cruisers make 19 to 24 knots, while the monitors can travel only five to seven knots.

The Iowa weighs nearly 12,000 tons, and as 20 tons is the average load of a freight car and 12 cars is a good load for a locomotive engine, it would take 50 ocomotives to haul the great steel structure.

Mr. Gladstone's Condition.

LONDON, May 5 .- The Daily Chroncle says this morning;

Mr. Gladstone's strength steadily leclines, though there is, we believe, no prospect of an immediate end. The disase has not gained force enough to vercome the wonderful strength of his onstitution, but a natural weakness now supervenes and gains upon him. ncouraged by Mr. Gladstone's fervent lesire for the rest which he has so richly earned. Queen Berent May Abilicate. LONDON, May 5 .- The Vienna correspondent of The Daily Chronicle says: "The idea of the resignation of the regency by Queen Maria Christina is

being seriously reconsidered by the members of the imperial family of Austria, with a view of averting an antidynastic movement and saving the throne. An exchange of ideas on the subject is going on between the queen regent and her Austrian family, but its most influential members are decidedly

opposed to it." Supplies For Dewey.

VALLEJO, Cal., May 5.-It is reported at the navy yard that the cruiser Charleston will go Into commission today and immediately get under way for the Philippines. She is expected to convoy to the orient under all possible speed one or more of the fastest steamers that can be purchased in San Francisco, which will be loaded with ammunition, coal, food, clothing and

Spanish Army May Mutiny.

LONDON, May 5 .- The Madrid correspondent of The Morning Post says: "The government is aware that it cannot rely upon the army. It is an open secret that a society has been formed within its ranks to put an end to the humiliations Spain has suffered at the hands of her incompetent ministers. Judging by what one hears, very ter-

rible things may shortly happen." Bernabe Going Home.

TORONTO, May 5 .- Senor Bernabe v Polo expects to leave here for Madrid Friday. Senor Polo denies that Senor Angulo is in constant communication with General Blanco in Cuba, by way of Toronto, and the Spanish legation here and denies also the statement that he furnishes the home government with information of movements of American warships and troops.

Maine Victim's Will. PHILADELPHIA, May 5 .- The regis-

IN CAMP AT HEMPSTEAD. THE

CHEERING NEWS TO FRIENDS OF MEMBERS OF THE 24TH.

Every Member of the Company in Excellent Health-Ma I watter stailed in Rempstead Post Office-The First Or II -Why Leaves of Absence Are Hard to Set-riest Visitor from Middletown-A Recruit to the Cuard Mouse-Interesting Incidents of Camp Life.

Special Correspondence Angus and MERCURY.

CAMP BLACK. HEMPSTEAD PLAINS, May 4, 1898.

No mail has reached us since our arrival except half a dozen letters which have straggled in at different times. It is said that nearly four tons of mail matter have accumulated at the post office at Hempstead, which is completely swamped. The men are all auxious to hear from home and are very impatient at the delay.

Every man in the company is in excellent health, which is in striking contrast with our visits to State Camp at Peekskill, when there were always three or four men on the sick list at a time.

The illness of Private Smith, of Newburgh, has doubtless caused considerable worry and apprehension upon the part of our friends, but the facts are that Smith should never have been allowed to leave Newburgh as he was ill when he left. He is in excellent hands in the hospital, where two trained female nurses of the Red Cross Society are in. attendance. There is very little illuess in the camp, a remarkable fact when it is considered that 9,000 men are here sleeping on straw under tents, and, above all, that we have not seen the sun since we arrived here. Raw, cold, wet weather still prevails and no prospect of a change.

THE FIRST DRILL.

Our regiment began its first work, this morning, with a battalion drill at 9:30. The early morning hours were devoted to moving our tents, which made the fourth time we have shifted our homes and yet we have not moved four leet from our original position. It is clearly -a case of incompetence on the part of the men who laid out the campfor we placed our tents each time at the exact spot in-

The news in the morning papers that Lieut, Wallace had been detailed to re--cruit the 124th Company was a surprise to the 24th and the regret is equally shared by Lieut. Wallace and his com-

FEW LEAVES OF ABSENCE.

Leaves of absence are very bard to olcow by members of the 69th Regiment, yesterday. Men can only be absent from camp for one hour, and as it is a threequarter of an hour's walk to Hempstead and takes the same time to get back a visit to the village is impossible.

The three days' rations we brought with us are getting low and as yet the only thing we have received from the State is zome bread. We have enough to last to-morrow in case the State fails to come to the front, in which case we will have to "chip in" and send some one to Hempstead for supplies.

THE FIRST VISITOR.

of that in my letter and the corporal | Mills, druggist Middletown, N.Y. indiguantly denies the story. He is here to stay if possible, and is as well as any man in camp. [The statement referred | to did not appear in Mr. Nickinson's letter, but in another article, and was based on a conversation which occurred at the armory before the company left.]

Sergeaut A. L. Decker has been made Acting Sergeant Major and your humble servant is acting as 1st Sergeant in consciouence,

Corporal Powelson and Privates Case, D. Jones, Chambers and Terwilliger, with Goding as supernumerary, were the detail from this company for guard duty to-day.

Chei Wallace is making a big hit as a cook, and there is less grambing about the mre tom, one men than in any com-7-600y around us.

MIDDLETOWNERS IN OTHER REGIMENTS.

I'hil Roosa is here with the 10th Battalion of Albany and made a pleasant call last evening.

Dr. Frank Winant is also here with the 71st Regiment of New York. We saw him first with a party of men from that regiment, who were engaged in purloining straw from the ground where it had been placed for the use of our battalion. I ran after the crowd, recogmizing the doctor, and made the men take the straw back, at the same time peying my compliments to the gentle-

IN THE GUARD BOUSE,

We had one man in the guard house, last night. He went to Hempstead to nurchase handkerchiefs and a night cap, despite the warning of his friends that he would not be permitted to return; if is a recruit and thought the boys were looling him and of course was stopped on his return. When we reached the company street, this morning, he was

REAL CAUSE

Many physicians do not seem to know that the real cause of the weaknesses of many women is to be found in disordered Kidneys and Bladder. They erroneously treat women for "female troubles," and their medicine does not reach the affected parts at all. The other day the New York papers recorded the death of a woman who died of Kidney troubles and had been treated for years for "female disease." If she had taken Dr. David Kennedy's Favorite Remedy she would be alive and well now. Unnatural drains, bearing down feelings, pain in the back, frequent desire to urinate, a sediment in the urine, pain in pass-

ing water-all these are signs of Kidney Trouble. Favorite Remedy will overcome them and restore health and strength. Your druggist has it for SAMPLE BOTTLE FREE.—All men and women who suffer from Kidney, Liver and Bladder Disorders should send name and address to the Dr. David Kennedy Corporation, Rondout, N. Y., when a sample bottle and pamphlet will be mailed free. Mention this paper when you write. Don't delay with a dangerous malady like Kidney Disease; life is too valuable to be thrown away.

his entire stock is confiscated and be finds himself without stock or money. That, of course, will soon be stopped.

ANXIOUS TO HEAR FROM DEWEY.

We do not know yet when we will be asked to undergo the physical examination and to muster in under Uncle Sam. We are most auxious to hear from Commodore Dewey, as it seems to be the impression that if that news is true, the

SORTING THE MAIL.

Sirgt. Conkling and Private Egan were corralled by headquarters, this p. m. and are now helping to sort out the

It is expected that drills will begin in earnest, to-morrow, and as I am performing the duties of first sergeant, chef tain, to-day, owing to the killing of a of mess and "war correspondent," the latter may have to suffer a little for a few days until I get more accustomed to my duties.
